💼 3 Years 2 Months

Experienced Software Developer proficient in Python, Django, Java, JavaScript, SQL, AWS, Microservices, Backend Development, Web Frameworks, Containerization, Git, Jenkins, Docker, Agile methodologies.

Profile Summary

As a Software Developer with over 3 years of experience, I have a proven track record in developing, optimizing, and reworking systems to meet specific customer requirements. I have extensive experience in writing custom Python code to extend Django applications, collaborating with other developers, and integrating third-party services and APIs. I have successfully designed and developed backend solutions using Django and Django REST Framework, demonstrating proficiency with database frameworks like MySQL, SQLAlchemy, Django ORM, and PostgreSQL. I have utilized Docker for containerization, enabling efficient deployment and scalability of microservices, and implemented RESTful APIs for seamless integration with front-end applications. I have also gained development experience in AWS Cloud services like ECS, S3 Bucket, EC2, and lambda, and have worked in an Agile environment, actively participating in sprint planning and daily stand-up meetings.

Education

2020, Full Time
PG Diploma, Centre for Development of Advanced Computing (CDAC), 75%

2018, Full Time
B.Tech/B.E., PSIT(UPTU),

2012
12th, CISCE(ICSE/ISC), English, 75-79.9%

2010
10th, CISCE(ICSE/ISC), English, 75-79.9%

Work Experience

2020 - Present
Software Engineer
Cybage Softwares Pvt Ltd

Project - Linkshare Dev - Affiliate Marketing Software Working as a backend developer for a leading affiliate marketing and advertising organization. Responsibilities: Designed and developed backend solutions using Django and Django REST Framework to create the APIs and maintaining the database. Proficiency with database frameworks like MySQL, SQLAlchemy, Django ORM and PostgreSQL. Utilized Docker for containerization, enabling efficient deployment and scalability of microservices.

Implemented RESTful APIs for seamless integration with front-end applications. Collaborated on CI/CD pipeline tools such as Jenkins and Github. Conducted thorough unit testing and participated in code reviews to ensure code quality and maintainability Development experience in AWS Cloud services like ECS, S3 Bucket, EC2 and lambda. Worked in an Agile environment, actively participating in sprint planning and daily stand-up meetings.
